A/Ch/GG/F

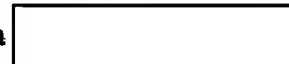

Limitations on High-Level Photography During the Summer Rainy Season in Southeast Asia.

To determine the feasibility of high-level photography over certain countries of Southeast Asia during the summer rainy season. (GG/F was asked to prepare an article that would indicate the effect on high-level photography of the generally heavy cloud cover which is characteristic of the monsoonal summer season. The GG/F article is to be an annex to a memorandum for the USIB.)

61.1723 C (CIA/RR GB 64-23 is attached.)

25X1A

COMMENT: After the article had been given to the requester,  Checked with  CGS, on the quality of photography since 1 June. The missions have been reporting 7/8 or more cloud cover, a result which substantiates the GG/F article.
